

Performance Assessment Resource Bank User Guide

Create an Account

Step 1: Create an account at <https://www.performanceassessmentresourcebank.org> by clicking the green “Sign Up” button in the top left-hand corner.

Search for Resources

Step 2: Click on Browse Resources in the top menu, and choose “Performance Tasks” in the drop down list.

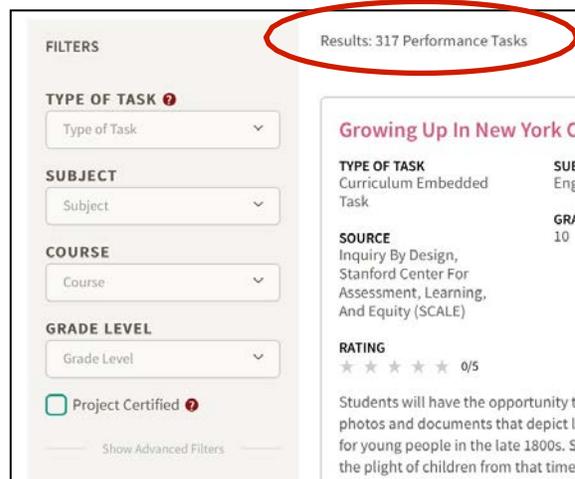

Step 3: In the new screen you will see a bar on the left titled “Filters.” Each of the categories has a drop down list when you click on small arrow.

Each filter that you select will reduce the number of Performance Tasks to look at.

The Project Certified tasks are those that have earned our seal of quality.

Click on “Show Advanced Filters” to narrow down your search. Be aware that using fewer filters will help you browse more tasks.

Step 4: To view the details of a resource click on the name of the Task. You will be brought to the detail screen where you can download any of that task’s resources and scoring guides.

Save Resources

Step 5: Click on the “Save To My Resources” on the right side of the screen. The button will change to “Remove From My Resources” once it is saved.

Step 6: To view the resources you have saved click on the “My Resources” in the top menu. A new screen will open that shows all of the Tasks that you have saved. You can click on the name of each to view all of the details.
