PERFORMANCE ASSESSMENT RESOURCE BANK

www.performanceassessmentresourcebank.org

The Performance Assessment Resource Bank, a project of UL-SCALE and SCOPE in collaboration with CCSSO's Innovation Lab Network, is an online, curated collection of tools and resources supporting the effective use of performance assessment. This state-of-the-art collection is designed to support K-12 teachers, school and district administrators, and state policy makers as they pursue innovative instructional and assessment strategies.

Performance Tasks

Portfolio Frameworks

Learning Progressions & Frameworks

Developing Performance Tasks and Rubrics

Scoring Performance Tasks and Designing Instruction

Policy & Research

To create a free account and access resources, visit the website at www.performanceassessmentresourcebank.org and click on the green "Sign Up" button. Access is free and currently available nationally and internationally as an open resource.

The Performance Resource Assessment Bank is funded by the William and Flora Hewlett Foundation and the Sandler Foundation and is a project of the Stanford Center for Assessment, Learning, and Equity (SCALE) and the Stanford Center for Opportunity Policy in Education (SCOPE).

To Submit a Resource to the Bank

Getting Started:

Step 1: Login to www.performanceassessmentresourcebank.org

Step 2: Choose "Submit a Resource" from the top menu/dashboard.

Step 3: Fill out the submission form to the best of your ability, including whatever information about the resource (i.e. a performance task) that you can give us. You will also be prompted to upload associated materials, such as rubrics, student instructions, and unit plans.

After Submission:

After hitting "submit", we will route your resource through the review process. Once the review is complete, you will get an e-mail notification with your review status. In many cases, we may suggest that you make some minor revisions to tasks in order to meet our quality criteria.

In order to see feedback & make revisions as needed:

You will be directed to access your review details, which includes comments and ratings according to the quality criteria, under "My Resources" and then the "Submitted Resources" tab on the site.

Depending on the rating received, the resource may have already been selected for inclusion in the bank – or remain pending revisions.

If revisions are needed, you can resubmit an updated version for further review. Ultimately, we hope that this process provides you with the opportunity for expert input and helps you further develop performance assessment tools to use within the classroom!
